- You can go to a bank that accepts MasterCard. You can ask to take money off the card but the bank may charge a fee.
- You can go to any ATM but you will be subject to the bank or ATM fee.

Why do I have to have two different PINs for my debit card and what is the difference between the 2 PINs numbers?

- Initially, you will be asked to enter a unique PIN to activate your card. This PIN will be used when you are trying to get cash from an ATM or make a debit transaction purchase. This will be the PIN number that you utilize the most.
- You will also be asked to create an online / phone PIN for extra security reasons when you sign up to see your account status and history. You can make this the same PIN as the first one or create a completely different PIN sequence for security reasons. Make sure to keep both PINs in a safe place because you will be asked for the second PIN if you loose your card or want help over the phone.
- The reason it is so important for you to keep your security PIN safe is because it can take up to 7-10 business days to receive your PIN in the mail. Sallie Mae CANNOT give your PIN over the phone or via email for security reasons.

How can I avoid any type of "maintenance charges"?

- You are not assessed an account maintenance fee unless your card is "inactive" for 9 consecutive months.
- If you feel that you are not going to use the debit card for an extended period of time, you can always transfer the funds to a bank account of your choice at no charge.
